**Subject:** Debit Card Fees

To whom it may concern:

I would like to send a complaint, concerning the fees accrued by many banks, regarding the usage of the debit card. I feel that when a person seeks bank services they should be intitled a statement stating the amount that may be charged additionally while using their debit card. I believe that "point of sale" devices should be updated, much like an ATM machine, which will let the consumer know the amount they will be paying in total...for example:

Amount of Items purchased:	9.99
Tax	.81
Total	<hr/> 10.80
P.O.S. fee	.50
Final Total	<hr/> \$ 11.30

The P.O.F. services will be posted when the consumer chooses to use his/her debit card. That way if the consumer sees the charges in this manner he/she will be aware.

Thank you so much for your time.
